Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	**DigitsSum.java**	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The program prompts the user for any integer number	Initially the sum =0. The number which the user typed once prompted would be stored in userNumber. It will execute a while loop while the userNumber>0 It extracts the last (rightmost) digit, and adds it to the running total. Then the last digit is shifted left, until all the digits have been processed	Prints the accumulated sum to the console for the user
